- Packaging

Up To .01 lb or 4.5 gram accuracy*

CW

Dynamic In-Motion Checkweigher

CW Dynamic In-Motion Checkweigher

Established in 1994, AP Dataweigh, Inc. is a checkweigher manufacturer offering a complete line of custom-built, dynamic checkweighers capable of addressing the needs of the pharmaceutical, food, agricultural and industrial product markets.

We provide custom solutions to regulation compliance, quantity verification, weight sorting, missing component inspection and out-of-tolerance check weighing.

AP In-Motion Check weighers are built to customer specification and designed to integrate into a number of applications including logistics and distribution, consumer packaging, material handling and food processing.

We distinguish ourselves by making what customers need instead of trying to sell what we make.

A subtle distinction, but one which we feel makes all the difference.

Dynamic check weighing solutions for your exact application and product line

The CW Case weigher provides a simple and economical way to conduct 100% product inspection.

Built heavy duty and rugged, the CW Case weigher is ready for almost any environment.

From 1 lb. packages to 200 lb. cases, the flexible CW unit can handle your exact weighing application.
